

MAHER FAYAD

Senior Product Designer

Riyadh, Saudi Arabia | +966 53 584 0297 | Contact@maherfayad.com | maherfayad.com | linkedin.com/in/maherfayad

PROFESSIONAL SUMMARY

Senior Product Designer specializing in bilingual (Arabic/English) experiences for the GCC market. Drove a 47% increase in online account openings and 81% growth in e-business transactions across Saudi Arabia's largest financial institutions. Now designing end-to-end journeys for Almosafer. Deep expertise in design systems, RTL localization, and analytics-informed funnel optimization.

PROFESSIONAL EXPERIENCE

Almosafer

Senior Product Designer

Feb 2025 – Present

Riyadh, Saudi Arabia

- Design end-to-end Arabic/English booking journeys across flights, hotels, and activities for **Almosafer, Saudi Arabia's largest OTA (61% of OTA air bookings) and the Middle East's largest travel business.**
- Lead design-system initiatives unifying components across web and mobile, reducing design-to-dev handoff inconsistency across product surfaces.
- Run Amplitude-driven funnel analysis across search, booking, and post-trip flows, shipping data-informed fixes to improve conversion.
- Localize RTL-first Arabic experiences using GCC conventions and PDPL-aware patterns, partnering with PMs and engineers on research-validated flows.

AZMX (AI Rajhi Bank)

Sr. User Experience Designer

Dec 2023 – Feb 2025

Riyadh, Saudi Arabia

- Boosted online account openings by **47%** through redesigned onboarding flows, and increased e-business transactions by **81%** by streamlining task flows, navigation, and design-system consistency.
- Delivered **41 revamps** across AI Rajhi e-business platforms, improving usability for enterprise and retail banking customers.
- Redesigned the enterprise payroll system with bilingual RTL interfaces and analytics-informed journeys.
- Designed across AI Rajhi group entities including AI Rajhi Capital, Emkan Finance, and neoleap.

Contact Financial Holding

Product Designer

Dec 2022 – Nov 2023

Cairo, Egypt

- Owned the full design lifecycle, research to Figma handoff, for 2 fintech products (Contact Now, Contact Brokerage), cutting rework through upfront usability testing.
- Built and maintained a Figma component library standardizing UI across the suite, accelerating handoff and aligning stakeholders.

Freelance Product Designer (via Upwork)

Clients: MIT Olin Foundation, Konica Minolta, SuperSight, Six Clovers, and others

Aug 2022 – Dec 2023

Remote

- Shipped Sanarte (mobile soundscape app, **100% task-completion** across 5 flows) and LFG (MIT Olin habit-tracker, **+20% engagement** via Octalysis gamification).
- Delivered end-to-end product design (research to tested prototypes) for **50+ clients** across the US, Europe, and MENA.
- Built Campus51 (LMS for curriculum and student engagement), Deployo (AI model-deployment dashboard for DevOps), and Six Clovers (decentralized payment portal with developer docs).
